SUMMARY

I am a passionate Front-End Developer specializing in JavaScript, React, and modern CSS frameworks. I build responsive, high-performance web applications that transform complex requirements into elegant digital experiences. My goal is to create impactful products using cutting-edge web technologies. View my GitHub for live projects.

SKILLS

Frontend	React.js, Next.js, HTML, CSS, TailwindCSS, Bootstrap, Vite, Three.js, EmailJS
Backend	Node.js, Express.js
Database	PostgreSQL, MongoDB
Other Skills	Problem Solving, Team Collaboration, Communication

INTERNSHIP

SDE Intern – Precise Automation & Robotics

Aug 2024 – Oct 2024

Worked on front-end modules and contributed to optimizing UI performance, component reusability, and animation logic.

PROJECTS

K72 Agency Website Clone

[Original Site](#)

Tech Stack: React.js, GSAP, TailwindCSS, TypeScript, Shadcn/UI, React Router, Vite.

Description: Built a visually engaging clone of the K72 agency website featuring smooth GSAP animations and modern UI design. Implemented scroll-based transitions and responsive layouts to replicate the original dynamic experience.

Obys Agency Website Clone

[Original Site](#)

Tech Stack: React.js, GSAP, TailwindCSS, TypeScript.

Description: Developed a pixel-perfect clone of the Obys Agency website, recreating immersive scroll and motion-based animations with GSAP and reusable React components.

EDUCATION

B.Tech in Computer Science Engineering

2022 – 2026

Sri Balaji College of Engineering and Technology, Jaipur

EXTRA-CURRICULAR ACTIVITIES

- Participated in front-end web development hackathons and design challenges.
- Active contributor to open-source front-end projects on GitHub.
- Guided peers in mastering React fundamentals and project structure.

PROGRAMMING AND LANGUAGES

Programming: JavaScript, TypeScript, Data Structures and Algorithms
Languages: English, Hindi
